

Sanitary Sewer Connection Fees:

Whenever it is necessary to connect a residential lateral into the sewer system, the following connection charges shall be imposed:

The connection fee for any single-family residential dwelling on and after April 1, 2015 shall be \$3,000.

For multiple-family residential users, the connection charges for multiple-family dwellings shall be as follows:

The connection fee for any multi-family residential per dwelling constructed on and after April 1, 2015 shall be \$3,000.

In the event a Special Service Area Tax is used to finance the construction of the sanitary sewer system, the tap-on fees will be reduced, but not below zero, by the discounted present value of the Special Sewer Area Tax. The discount rate used in the calculation will be the effective interest rate on the bonds which financed the project.

Special Sewer Area – Piasa Hills Subdivision – Tax Period 2010-2024

Monthly Sewer Rate Fees:

Residential – Flat Rate of \$30 billed quarterly (per month as of August 1, 2015)

Delinquent Billing Procedures:

Quarterly Cycle

Last Day of Month: Bill is mailed

15th of following Month: Amount due

Day 16: 10% penalty assessed on any current past due balance

3 Months later: Second Monthly bill is mailed (includes any previous balance and penalty fees)

A Red Notice is sent in addition to bill card.

6 Months later: Third bill is due. (Included any previous balance and penalty fees)

Notice of Water Shut-Off is sent.

One Month later: If payment has not been made to the Sewer Department – Water service is shut-off; and a \$90.50 fee is added to the Sewer bill. Both the shut-off notice fee and the shut-off of service fee will increase each time you receive a written notice or when service personnel are sent to your address during the same fiscal year.
