

Make a difference in your community.

Every 10 years, everyone living in the United States gets counted in the census—once and in the right place.

Your response helps make sure that more than \$675 billion in federal funds is directed each year to the right places to support education, health care, firefighting services, and more. Many decisions about where to send this money are based on census data. A complete and accurate count is also critical for determining how many representatives each state will have in Congress.

Where you are counted can shape your future.
