

Why We Ask

The 2020 Census is easy. The questions are simple.

Responses to census questions provide a snapshot of the nation. Census results affect your voice in government, how much funding your community receives, and how your community plans for the future.

When you fill out the census, you help:

Determine how many seats your state gets in Congress.

Inform how more than \$675 billion in federal funding is distributed to states and communities each year.

Create jobs, provide housing, prepare for emergencies, and build schools, roads and hospitals.

The 2020 Census will ask for the following information:

Number of people at address

We ask this question to collect an accurate count of the number of people at each address on Census Day, April 1, 2020. Each decade, census results determine how many seats your state gets in Congress. State and local officials use census counts to draw boundaries for congressional districts, state legislative districts, and school districts.

Any additional people living or staying there

Our goal is to count people once, only once, and in the right place according to where they live on Census Day. Keeping this goal in mind, we ask this question to ensure that everyone living at an address is counted.

Owner/Renter

We ask about whether a home is owned or rented to create statistics about homeownership and renters. Homeownership rates serve as an indicator of the nation's economy and help in administering housing programs and informing planning decisions.

Phone number

We ask for a phone number in case we need to contact you. We will never share your number and will only contact you if needed for official Census Bureau business.
